FCST-CR120-CNT Fiber Raceway Connectors

Fiber optic raceway connectors are component systems designed to join, redirect, branch, and terminate sections of the main raceway. Acting like joints and hubs, they assemble straight raceway segments into a three-dimensional network that accommodates the complex layouts of equipment rooms, ensuring that fiber optic cables remain protected even at points where the routing changes direction.

- Compliant with the UL94-V0 fire safety standard.
- Used for connecting straight sections of 120mm fiber optic raceway channels.
- These connections feature a robust structure with high tensile strength, preventing the raceway from detaching or deforming.

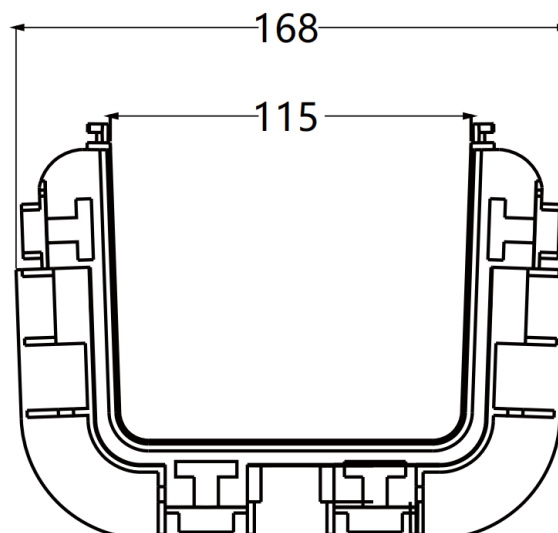

Product Specifications

Construction	Description
Material	ABS
Flame-retardant Rating	V0
Packaging	60PCS/CNT 9.78KG
Weight	163g

Product Structure

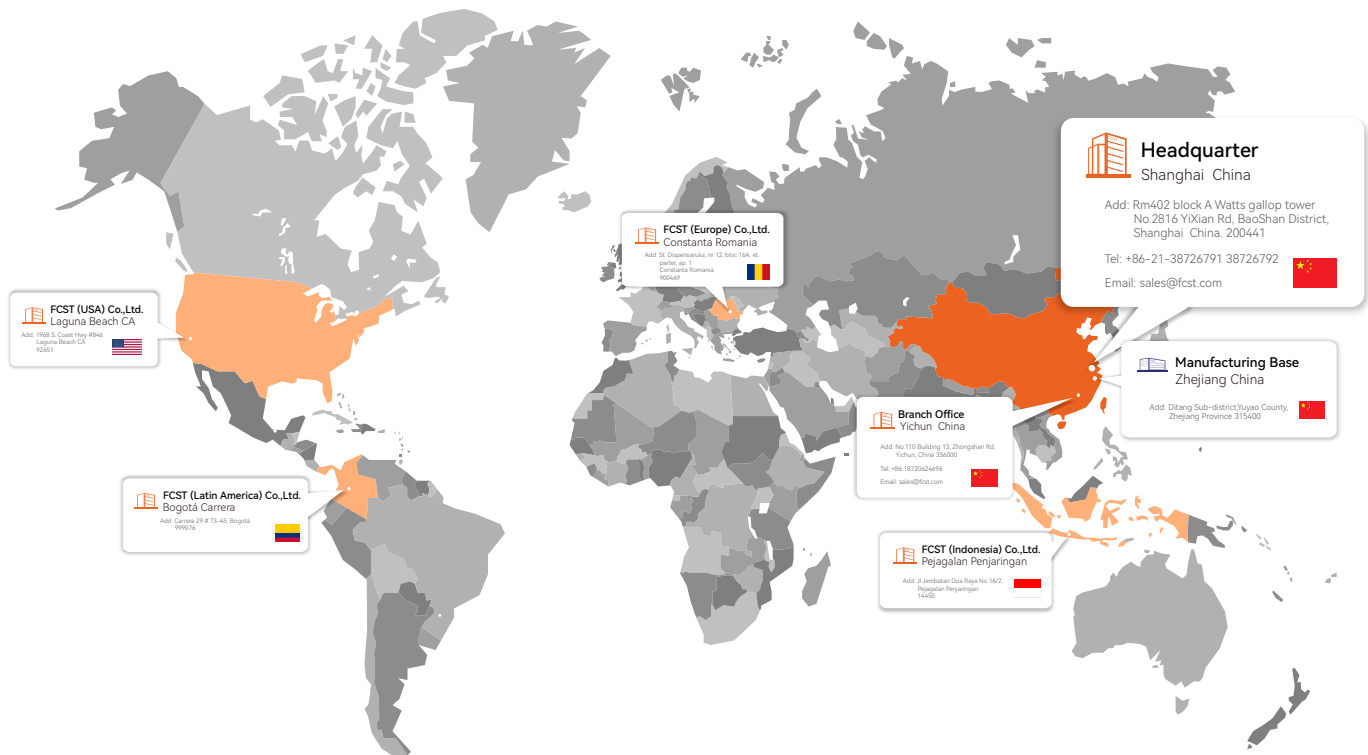

Unit:mm

Better FTTx, Better Life.

Fiber Cable Solution Technology Co.,Ltd.

FCST - Better FTTx, Better Life.

At FCST, we manufacture top-quality microduct connectors, microduct closure, telecom manhole chambers and fiber splice boxes since 2003. Our products boast superior resistance to failure, corrosion, and deposits, and are designed for high performance in extreme temperatures. We prioritize sustainability with mechanical couplers and long-lasting durability.

FCST aspires to a more connected world, believing everyone deserves access to high-speed broadband. We're dedicated to expanding globally, evolving our products, and tackling modern challenges with innovative solutions. As technology advances and connects billions more devices, FCST helps developing regions leapfrog outdated technologies with sustainable solutions, evolving from a small company to a global leader in future fiber cable needs.
